

Synthetix – Chatbot Information (For MVP Integration)

1. What is Synthetix?

Synthetix is an AI-first startup focused on building smart, accessible automation services for real people, small businesses, creators, and entrepreneurs. We take advanced AI tools and turn them into useful services that save time, generate revenue, and scale operations.

2. Mission

Bring AI to the people. Bridge the gap between advanced AI and everyday users and businesses.

3. Services – Current and Future

Current MVP – AI Sales & Booking Assistant:

- Auto-response to messages (WhatsApp/Instagram)
- Appointment scheduling and follow-up
- Payment link delivery and FAQs

Future services:

- AI content generation for creators
- Smart CRM bots for lead nurturing
- Chatbots for e-commerce and customer support
- Research assistants for academics
- Custom automation for agencies

4. Target Customers

- Small and medium-sized businesses
- Local clinics, beauty salons, tattoo studios
- Coaches, consultants, freelancers
- Online stores
- Solopreneurs and creators
- Startups and agencies

5. How It Works

The chatbot interacts through WhatsApp, Instagram or web. It detects intent (sales, booking, info, cancel, etc.), asks questions, responds using AI, and performs actions like booking or sending links.

6. Chatbot Tone and Personality

- Friendly, confident, and helpful
- Natural and human, not robotic or too casual
- Example: “Hey! I’m your assistant from Synthetix. Want to see what we’re building? I’ve got you.”

7. Frequently Asked Questions

- What is Synthetix?
- Who is behind the project?
- What is the MVP product?
- Who is this for?
- How can I test it?
